# PENNSYLVANIA HOSPITAL.

---

At the 121st Annual Meeting of this Corporation, held 5th month 1st, 1871,  
the following Contributors were elected to serve for the ensuing year.

## MANAGERS.

MORDECAI L. DAWSON,	WISTAR MORRIS,
JOHN FARNUM,	JACOB P. JONES,
WILLIAM BIDDLE,	BENJAMIN H. SHOEMAKER,
ALEX. J. DERBYSHIRE,	ALEXANDER BIDDLE,
SAMUEL MASON,	JOSEPH B. TOWNSEND,
SAMUEL WELSH,	JOSEPH C. TURNPENNY.

## TREASURER.

JOHN T. LEWIS.

At the first meeting of the Managers, the Board unanimously elected

MORDECAI L. DAWSON, *President.*

BENJAMIN H. SHOEMAKER, *Secretary.*

# OFFICERS APPOINTED BY THE MANAGERS.

---

## HOSPITAL ON PINE STREET.

---

STEWARD, WILLIAM G. MALIN.

MATRÓN, MARY D. SHARPLESS.

CLERK AND LIBRARIAN, ALEXANDER D. STOCKTON.

APOTHECARY, JACOB K. HECKER.

### PHYSICIANS.

JOHN FORSYTH MEIGS, M. D.,      JAMES H. HUTCHINSON, M. D.  
JACOB M. DA COSTA, M. D.,      J. AITKEN MEIGS, M. D.

### SURGEONS.

ADDINELL HEWSON, M. D.,      THOS. GEORGE MORTON, M. D.  
WILLIAM HUNT, M. D.,      RICHARD J. LEVIS, M. D.

### RESIDENT PHYSICIANS.

MORRIS LONGSTRETH, M. D.,      JAMES C. WILSON, M. D.,  
ROBERT H. ALISON, M. D.

PATHOLOGIST AND CURATOR, MORRIS LONGSTRETH, M. D.  
PATHOLOGICAL CHEMIST, HORACE BINNEY HARE, M. D.

MICROSCOPIST, JOSEPH G. RICHARDSON, M. D.

SOLICITOR, GEO. W. BIDDLE, 208 S. 5th St.

# ANNUAL REPORT

TO THE CONTRIBUTORS TO THE PENNSYLVANIA HOSPITAL.

DURING the year ending April 22d, 1871, the work performed in the Pine Street Department of your Hospital is shown in the following statement, viz.:—

Total number of cases treated . . . . .	2094
New cases admitted . . . . .	1934
Number of persons discharged cured or greatly benefited .	1923
Outdoor cases which have received medical or surgical aid .	594
Recent accidents brought into the institution within twenty-four hours after the occurrence of the mishap . . . .	826
Patients remaining in the hospital for the sick . . . .	171

In the early days of the Hospital it was the only gratuitous dispensary of medical aid in the city, but since the establishment of institutions with this particular object about the year 1820, the attention of the Hospital has been given exclusively to its own inmates, until the crowding of its wards induced a renewal of the practice of dispensing aid to non-resident patients.

The extent of this aid applied for and extended to those applying at the hospital is now nearly as great as that of the annual average of its early history, demonstrating that the charity of our citizens, however liberal, is not adequate to the increased necessities of the suffering poor.

The expenditures for the Hospital on Pine Street, received from treasurer, was . . . . .	\$46,187 50
Other items . . . . .	981 65
Expended by the steward, his receipts for board of patients and other items . . . . .	7,856 00
Total expenditure . . . . .	\$54,043 50
The total income from invested capital received during the year is . . . . .	\$38,462 66
The receipts from subscriptions for 1870-71 . . . .	18,107 07
Total income received by treasurer . . . . .	\$56,569 73

It will be perceived that the voluntary five years' subscriptions have supplied a very large deficiency which would otherwise have existed.

During the past year the following donations and legacies have been received and added to the endowment fund.

From JAMES BAYARD, executor and trustee under the will of MARGARET LATIMER, . . . . .	\$5,000 00
to maintain such persons, not exceeding one at a time, as the Managers of the Indigent Widows' and Single Women's Society shall send from the inmates of their Asylum, under the usual lawful requirements, to the branch of your Hospital in West Philadelphia.	
From ELIZA H. VAUX, a legacy . . . . .	1,000 00
" LAWRENCE LEWIS, donation . . . . .	250 00
" GEORGE ORD, legacy . . . . .	25,730 68
" GEORGE COZZENS, legacy . . . . .	423 98
" JOHN W. GRIGG, legacy . . . . .	47,500 00
" EVANS ROGERS, legacy . . . . .	952 50
" CHARLES PEROT, legacy . . . . .	1,000 00
" W. S. BAIRD, legacy . . . . .	1,000 00
Sundry contributions . . . . .	415 00

The legacies of JOHN W. GRIGG, ELIZA H. VAUX, CHARLES PEROT, and W. S. BAIRD were mentioned as announced in last year's report. They are now recorded as received.

A sum of \$1000 has also been received from MARY D. BROWN, who has for several successive years contributed like amounts for the immediate benefit of our suffering patients.

A bequest of \$1000, under the will of JAMES R. GREEVES, has been announced to us.

From BENJ. H. SHOEMAKER we have received a donation of all the new plate-glass in the new windows of the south front.

The pavement on Eighth Street, between Spruce and Pine Streets, has been relaid with North River flag-stone and wide-dressed granite curbstones, by Messrs. ALEXANDER J. DERBYSHIRE and JOHN T. LEWIS, at a cost to them of about \$5000.

Application having been made by the Pennsylvania Historical Society to lease the building on Spruce Street, formerly used for the exhibition of West's painting of "Christ Healing the Sick," a lease of the premises has been given to them for ten years, at a nominal rent, the lessees to pay all taxes and assessments, and to take up and renew the pavement on Spruce Street between Eighth

and Ninth Streets, with flag-stones, and curbing the same as upon the Eighth Street front, and also to have the privilege of removing and using the materials of the wall on Spruce Street, so as to make it conform in general appearance with the Pine Street front, with the purpose of improving and beautifying the neighborhood.

The Board have been advised that an effort has been made to procure legislative action to alter the south line of Spruce Street, which is entirely without their sanction or approval.

In obedience to the instructions of the Contributors at their last annual meeting, arrangements were made with the Medical Staff to devise a plan for teaching female students of medicine, in accordance with which lectures have been delivered to the students of the Women's Medical College, in the months of October, November, December, 1870, and January, February, March, 1871, chiefly in the wards of the Hospital.

Mixed lectures have been entirely avoided.

The Physicians report that these clinics have much increased their labors, diminishing the time appropriated to patients, and have called to our attention the fact that whilst in the session of 1869-70, 500 students (42 of whom were women) attended the Hospital clinics, in the session just closed but 206 students (including 32 women) have attended the course.

If the Contributors have instructions to give for the future government of the Hospital in this respect, the Managers will comply therewith; but if not, they will conceive that the whole matter of lectures to females is left to their judgment and discretion.

In our last report we brought to your notice two very interesting volumes of surgical experience in important cases met with in your wards, the publication of similar works being then discontinued for want of means. Charities which promote habits of thought by recording valuable observations, develop new powers for human relief, and thus increase the permanent happiness of man. In this view it is proposed to devote a part of your bounty to the revival and encouragement of like efforts for the progress of science, wisely begun by your medical staff. The Boston City Hospital, in an elaborate volume of 688 pages, have emulated their efforts. The Reports of Guy's Hospital, Southwark, London, are yearly published, widely circulated, and esteemed of great value. We should endeavor to secure to society the greatest amount of benefit from your Hospital, and maintain the character of its practice as that of a model institution of the highest scientific order. This policy,

it is believed, will prove to be the best for its inmates as well as the best to insure a liberal support from the public.

We have to note the resignation of Dr. JOHN CONRAD, who for thirty-nine years has had the charge of the prescriptions and meteorological register of the Hospital for the Sick. He bears with him in his retirement the sincere good wishes of the Managers, who have highly esteemed his worth, fidelity, and usefulness.

At the close of this year the Hospital will be without the yearly aid hitherto promised by many of its Contributors. We again ask for similar assistance, by which a solid support so imperatively needed for the well-being of your institution may be secured in time to come, and especially that the Department for the Sick may not be compelled to diminish its usefulness by closing any of its wards now in operation.

The Thirtieth Annual Report of Dr. KIRKBRIDE, Physician-in-Chief and Superintendent of the Hospital for the Insane, exhibits in a compact form the events of that department during the past year, with the usual good results of the care and attention of its chief. These branches of your Hospital, during the past year, have been self-sustaining, and we might reasonably hope that they will be so hereafter, were it not for the necessity of providing means for contemplated municipal improvements.

The policy of your Board in making liberal concessions for the accommodation of the public, the extension of the city westward, and the proposed widening of Market Street and Haverford Avenue, will probably at an early day require a large outlay, estimated at \$60,000, to meet the cost of grading, curbing, and paving the streets which bound the Hospital for the Insane, for which we may require the aid and help of our friends who have so readily and generously responded to our wants in the past.

As inquiry has been made in respect to the power of the city to affect the property occupied by the Insane Hospital, by the laying down and opening public streets, it may be a fitting time to record here the situation of the matter, and what has been done with the view of settling this question forever.

The Legislature of Pennsylvania, by an Act passed 17th April, 1854, provided that if this corporation would throw out and dedicate to public use the ground required for the streets on the eastern and western boundaries of the Hospital property, they should thereafter forever be exempted from being intersected or cut into by any public streets. In conformity with the provisions of this Act, this corporation executed proper deeds of dedication of the

ground for the streets on the said east and west sides, which were delivered to and accepted by the city, thus creating a legislative contract, the consideration for which has been furnished on our side, which can be safely relied on to protect our grounds in the future; the public, by the preservation of this space from being intruded upon, are benefited by securing what amounts almost to a park, and at the same time it gives the privacy which the proper administration of this charity requires.

The sufficiency of the contract then made by the Legislature to preserve our property from being encroached upon for streets, came under judicial inquiry in the case of the widening of Haverford Street, which it was proposed by the Board of Surveys to widen, by taking a strip off the Hospital property. On exceptions filed on behalf of this Corporation, it was held by the Court, the late Judge OSWALD THOMPSON presiding, that, except with the consent of the Contributors of the Hospital, no part of our ground was liable to be taken for any public street, the protection under the above legislative contract, complied with on our part, being absolute.

The construction of a new ward has been proposed from the legacy of JOSEPH FISHER, deceased, and also some special provision for colored patients who may require treatment.

During the history of the Insane Department, out of 5796 patients admitted, the duration of the disorder in 3025 did not exceed three months, although admittance was not applied for upon the appearance of disease, but in many instances after other treatment had proved unavailing.

The great advantage of the early use of the restorative means of liberty, occupation, and amusement, which your extensive grounds and other resources designed to promote health afford, is evident from this result. Competent authorities state that of those who enter asylums soon after the beginning of an attack, six out of seven recover, whilst after the second year the number of cured is very much diminished.

In your Hospital the treatment of insane patients is always open to outside medical suggestion, with lawful public inspection, and every effort to gain their confidence by gentleness and kindness, and divert their thoughts by recreation, is the aim of their protectors. These principles have ever prevailed, and never in its career have its charitable designs been misused for evil purposes. Yet just in proportion as the attention of the public mind is invited to the great power of organized charitable efforts in relieving this

form of calamity, it is found to be necessary to resist the effect of false and malicious imputations to lessen their influence.

Whoever will examine the history of the treatment of the insane will be surprised to find how very brief has been the time since the Protestant world has treated these unfortunates with wisdom and humanity.

Up to the close of the eighteenth century the cell, the whip, and pollution was their doom. These evils have mainly been obviated by the publicity which attends their treatment in institutions especially devoted to their benefit, and with wise provisions for inspection, such as have been contemplated in the Act of Assembly constituting the Board of Public Charities, there is little danger of abuses within their limits which may not be speedily corrected.

In the Annual Report of your Superintendent-in-Chief of the Insane Department, he has taken occasion to acknowledge the courtesy of members of the legal profession in those instances which they felt it to be their duty to investigate; but lately your Managers have had occasion to believe that the residence of a properly admitted patient within our medical charge, whose case had passed judicial scrutiny, was made the subject of cruel gratuitous outrage to the feelings of a respectable family, with considerable needless risk to the patient herself.

It is a sacred duty of your Board to prevent unauthorized intrusion into the domestic misfortunes of their suffering patients, and whilst they freely afford every facility of inquiry that the conscientious defender of personal liberty may require, yet, when they have reason to believe that privileges thus accorded will be used in contempt of decency, with solely a prurient desire for notoriety, it will be proper to require that they shall be exercised in company with relatives or under the direct sanction and responsibility of the judges of the Courts.

The Contributors are asked to appoint new Trustees of a fund bequeathed by JOHN PEMBERTON, in January, 1794. His will of that date sets forth that four hundred pounds were to be left in trust, the interest of which was to be applied as the trustees might deem best, to the redemption of debtors confined in the gaol of the city and county of Philadelphia, whose cases may claim the most commiseration, the Contributors of the Pennsylvania Hospital and their successors to nominate and appoint new and other trustees for the management of this bequest, as often as they may judge needful. On the 6th of May, 1833, five trustees were appointed; their survivors, HENRY J. WILLIAMS, THOMAS MCEUEN, and WM.

F. GRIFFITHS, apply to be released from the trust, and request that other trustees shall be appointed, to whom they may hand over the trust property. The desire of the author of the bequest "to remember the poor debtor," may yet find a proper application in relieving a class of persons who are detained in prison for unpaid prison dues, after their sentences have expired. These cases have been brought to our notice by "the Society for alleviating the Miseries of the Public Prisons." The trustees to be appointed are to supply vacancies and succeed those resigning the trust.

In closing our Annual Report we desire to place on record our testimony of the worth and high character of our late and dearly-loved associate, SAMUEL MORRIS WALN, who died on the 23d of December, 1870.

During a period of fifteen years of arduous labor in promoting the prosperity of your institution, his wisdom has aided our counsels, and his active, liberal spirit in manifold instances has promoted the pleasure and welfare of your suffering dependents; though taken from this sphere of usefulness,

"Yet, like Heaven's fire,  
It is not quenched, but gone."

M. L. DAWSON, *President.*
